

Bovis, Kyle, Burch & Medlin, LLC keeps things rolling with our Transportation practice. We have experience as local, regional, and national counsel, and work closely with transportation companies not only on claims, but to help manage the risk of fleet operations. Our attorneys vigorously defend claims affecting the transportation industry, including personal injury, wrongful death, property damage, worker's compensation and cargo claims. When accidents happen, our team of professionals understands that an immediate response is essential. Like our clients, we understand that the success of the transportation industry depends on keeping people on the road, on the rails and in the air. Our transportation professionals stand ready to go the extra mile to ensure that carriers are not only prepared for the hazards ahead, but when encountered, are counseled and represented. We maintain close working relationships with expert witnesses who also are capable of responding 24/7/365.

We are sensitive to protecting our clients' public persona and reputation throughout litigation and particularly before juries and in the media.

At the scene, behind the wheel of your defense in shipping, cargo, private fleet, railroad, aviation and public transportation cases: always Bovis Kyle.
